MONDAY, OCTOBER 9 1738.

119 1027.

Petersburg, Sept. 12. O. S.

HE Czarina has caused a Decree to be published, wherein she promises all Soldiers and Sailors that have deserted her Service, to grant them her free Pardon, if they return home before the End of this Year. A great Number of Recruits are to be raised this Winter.

in order to be sent to the two Armies command of the Velt Marshals de Munich. The Count d'Ostern, Vice Chan- celeer, represented to the Count d'Ostern, the Envoy Extraordinary, that the Czarina resolved to perform all her Engagements with the Turks, had order'd the Count de Munich to be able to join the Troops of his Imperial in Transylvania; and that the General had nothing for that Purpose; but that the Roughness of the Ways in a Country the Turks have ruin'd, and where the Plague great Havock, obliged the Velt Marshal to a better Opportunity.

Letters from Moscow say, that a new Am- bassador expected there every Day from Persia, and have Advice that Kouli Kan has taken an Province belonging to the Great Mogul. We have Advice, that the Velt Marshal de Lascy is ar- rived with his Army on the Banks of the Borysthene, and that from thence he is to continue his March towards the Ukraine. 'Tis expected that the will make some Attempt upon Oczakow before the Campaign is over; but the Court seems very easy at Head, the City being provided with all Arms, and the Garrison numerous.

Sept. 9. The last Advices from the Fron- tier of the Ukraine continue to say, that the Velt Marshal de Munich is on the March to that Country, already passed the Bog and the Ingul in his way to the Nieper. 'Tis reported, that the Crim- ean General Lascy is return'd out of their Country, threaten another Incurfion this Year into the Ukraine. Their Kan or Governor, Bengli Girey, sent for all the Sultans of the Crim, and pro- vided them to make a fresh Attempt upon the Fron- tier of the Ukraine, or of Russia; they at first Reluctance to it, because of their Mifcar- riage an Enterprize of that sort last Year: But Girey having communicated Letters to them the Seraskier of Bender, and the Sultan of Constantinople, they seem'd more inclinable to do as the Sultan's Order: And we are assured, that the Sultans of Constantinople afterwards sent Orders to the Murzas that they should assemble all the Hordes in the neighbourhood of Perecop.

Sept. 19. On the 16th Inst. at 5 o'Clock Morning, their Polish Majesty's arrived here Dresden, being saluted by a Discharge of 300 Cannon which were planted in the Suburb of Wiclow. The Plague continues to be very destructive in the Cities, Caminiec, and the neighbouring Villages; and we hear that all the In- habitants of a Place called Chodakow, which is about 10 Miles from Zolozyc, are dead of it, not one left. 'Tis certain, that the Contagion in those Parts has contributed very much to the Retreat of the Russians, who otherwise wou'd have proceeded to- wards Choczim, tho' they had suffer'd prodigiously from the 8th Instant, sent from one of the chief Officers of our Army; of which the following is an Extract.

The Russians are at length march'd out of the Territories of the Republick. They suffer'd very much all the Time they were in them, not only by reason of the almost continual Attacks of the Turks and Tartars, who harass'd them Day and Night; but also by reason of the Scarcity of Pro- vision and Forage, so that they have lost some of their Horses and Oxen. There are also a great many Sick among their Troops, which is chiefly owing to their vast Fatigue, having been almost constantly oblig'd either to be on the March, or to be under Arms, to repel the Attacks of the In-

Constantinople, Aug. 1, O. S. Two Ambassadors arrived here a few Days ago, from the Sophy of Per- sia, and are to be immediately followed by a third, who is said to be the Chief of the Embassy. 'Tis said their Errand is to establish a Peace between this Em- pire and Persia. These two Ambassadors have already had some Conferences upon that Head, with the Governor of this City; and 'tis said, that they have declared, that the King their Master wishes heartily for such a Peace to be made in Conjunction with Russia. The Porte has sent Orders to the Reis Ef- fendi, who is in the Army, to return forthwith, on purpose to treat with the said Ambassadors. An Ex- press arrived here some Days ago from the Crim, with Advice, that the Captain Bashaw had forced the Russian Flotilla, after a very sharp Fight, to abandon the Sea, and to return to Asoph; after which the Velt Marshal de Lascy, being able to sub- sist no longer in that Peninsula, had also thought fit to abandon it, and to retire towards the Ukraine; which News had occasioned great Rejoicing; but the Joy was in a great Measure damped, by Advice which came at the same Time, that the Russian, before they went, blew up the Fortifications of Or, and entirely demolished the Lines of Perecop, and carry'd off a great Booty with them. Provisions are still very dear here, and the Plague very fatal.

Zurich, Sept. 16, O. S. The Regency of this Can- ton has received a Letter from the Cardinal de Fleury, declaring, that the King has been so good to the Helvetic Body, as to declare, that for the future all native Swissers settled in his Dominions, shall be free from Taxes. We have News from Piedmont, that his Sardinian Majesty is recruiting several Regiments there, and that his Troops amount to 35,000 Men.

Schaffhausen, Sept. 16, O. S. Some of the Pro- testants who went from the Netherlands to seek a Settle- ment in Carolina and New Georgia, are returned home, not being able to reconcile themselves to the Air and Provisions of the Climate and Soil, nor to Conditions of their Establishment. Their Situation is the more melancholy, because, before they went from hence, they sold all they had in the World; and what is altogether at bad is, that before they de- parted, the Government declared to them, that by their breaking the Common Union established among the Swiss, and by their selling their Effects, and re- tiring out of the Country, they intirely deprived themselves of the Right of Comburgerfhip, and other Advantages attach'd to this Nation. Several of them, in Hopes of obtaining some Allevation in their Fa- vour, have presented the most humble Petitions, in which they set forth, that they have not seen the Effect of the Promises made to them to entice them into America, that they are very sorry they were so rash as to leave their Country, and they beg, for God's Sake, that they may be re-admitt'd into Com- burgerfhip, and restored to the Enjoyment of their old Privileges. The principal Motive that may per- haps prevail for granting them this Favour is, the Mi- lity to which their Wives and Children are re- duced.

Paris, Oct. 6, N. S. The last Relapse of Cardinal de Fleury determined his Eminency to set his Do- mestick Affairs in Order; and for this Purpose he has caused an Inventory to be taken of his Goods and other Effects, which we are assured don't amount to above 16,000 Livres, exclusive of his Plate; which is not much to be wonder'd at, when 'tis considered, that the Cardinal de Fleury always preferred a certain Simplicity to the greatest Pomp and Splendor, and that the only Character in which he has strove to shine, is his Love and Zeal for the Glory of the King and Government. The Irish Regiments in the Service of this Crown, having great need to be re- cruited, are to repair to Ireland, in Hopes of the King of Great Britain's Permission to raise the ne- cessary Recruits.

According to a private Letter from Naples, 'tis computed, that from the Accession of the King of the Two Sicilies to the Crown, in 1733, to the Month of September last, there have been brought into that Prince's Treasury, thirty-one Millions of Italian Ducats; that the Sums sent to Spain upon sundry Occasions, amount to nine of those Millions; that the Revenues of the Kingdom of Naples have already produced twenty Millions of Ducats, and those of the Kingdom of Sicily two Millions; but

the Revenues of the State Del Presidii, which also belongs to the King of the Two Sicilies, are hardly sufficient to maintain the Troops which are there.

Concerning Gleet and Seminal Weakness of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weakness, whether it proceed by too severe purging for Venereal Injuries, Strains, Pollution, &c. or any other Cause whatever, that they are dangerous in their Consequences, and difficult to cure, as is certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectick Fevers, a Tabes Dorsalis, or Corruption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be afflicted with Old or Stubborn Gleet, Seminal Effusions, Urinary Emissions, excessive Nocturnal Pollution, or any Weakness of the Kidneys, Uterus, or Bladder, the Difficulty of Urine, or Difficulty of holding the Urine, would doubtless be glad to meet with a certain, speedy Cure, which they most assuredly may, by only a small Quantity of a transcendent Balsam, called **ATRACTIVE ELECTUARY**, now published for a general use after having for many Years been experienced and used with perfect success, the most Stubborn Gleet cured in a few Days, without Difficulty or Trouble; and the other Weaknesses of the Back, Reins, Seminal Vessels, Urinary Passages, which almost instantly cure, and restore to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent **BALSAMICK RESTORATIVE** is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weaknesses of Constitution of any Kind, and particularly in the Back, Reins, Seminal and Urinary Vessels to any Weakness, inasmuch that in any Debility of them, one does more than ten of any other Remedy yet found; and all Persons fatigued with Gleet or Seminal Weakness, or Sort, or Weaknesses of the Urinary Vessels, who take it in three Days time find it to be very effectual, and most agreeably surprised at it.

When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy does directly will, even after all other Means and Medicines have been tried in vain, too much cannot be said in its Praise. All who ever took it for any of the above-mentioned Disorders have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Cure one Pot alone being sufficient in most Cases to remove a Cure, worth ten times as much, and by the special Appointment, is to be had only at Mr. Chamber's Toy-shop, at the Rose and Crown against St. Dunstons Church-yard in the Strand, ready sealed up, with a Paper of Instructions, which whosoever carefully reads will fully know, when the Gleet or Weakness is in its full force, succeeds a Venereal Injury, whether all the Malady the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6s. Pot of Balsamick Electuary.

LONDON: Printed for T. COOPER, at the Globe in Paternoster-Row.
